2021

2024

The journey of Mix Culture began much earlier than 2021. At the age of 16, I stepped into the world of events, which gave me my first taste of building experiences for people. From there, I went on to work as an assistant director, and later moved to Pune, where I deepened my understanding of what it means to chase a dream. By 2019, I had already started writing about the idea of Mix Culture, shaping the vision that would eventually come alive.

In 2021, during the Covid era, with just three people by my side, Mix Culture officially took form. At 23, starting something of my own was both daunting and exciting, but the love and support you've all shown has made every step worth it.

Our heart lies in serving the most authentic Chicago-style deep-dish pizza, but Mix Culture was never meant to be only Italian in spirit. The name reflects our philosophy—a melting pot of pizza cultures from around the globe. We wanted our space to blend the rustic Italian vibe with the bold, street-style energy of New York.

A place that serves New York-style Chicago deep dish should carry the character of New York with a pinch of Italy—and that's exactly what Mix Culture stands for.

Looking at the journey, I am beyond grateful. It would mean the world to us if you keep spreading the word and help make Mix Culture the next big thing. Thank you for being part of this journey.
